

Jin S. Chung
2013
jschung@isope.org

Elected First President (1999-2000) and Executive Director (1989–), ISOPE (The International Society of Offshore and Polar Engineers; IRS code 501 (c) (3); info@isope.org www.isope.org)
Technical Editor (1990–), International Journal of Offshore and Polar Engineering; editor@isope.org

Education:

1969	PhD	Engineering Mechanics - Fluid Mechanics	University of Michigan, Ann Arbor
1964	M.S.	Naval Architecture - Hydrodynamics	University of California, Berkeley
1961	B.S.	Naval Architecture & Aeronautical Eng.	Seoul National University, Korea
PhD Thesis: Laser Doppler Anemometer Measurements of Turbulence in Non-Newtonian Pipe Flows, <i>The Physics of Fluids</i> , Vol 15, No 4, pp 546-554, 1972.			

Professional Societies: Fellow ASME (1984-); Member: Tau Beta Pi, Sigma Xi, ISOPE, KSOE, JASNAOE and more

Special Training:

- Reservoir Engineering School, **Esso** (Exxon) Production Research Co., Houston, 1972.
- On-Board Supervisory Training of Floating Drilling Operations, **Esso** Production Research Co., 1972.
- Technical Writing School, **Esso** Production Research Co., 1971.
- Kepner Trigoe Problem Analysis Program, Lockheed Missiles & Space Co, 1977

Reports and Publications: Author and Editors of more than 250 books and papers.

Industries:

- 1980-** **Expert consultant to the industry.** Initiated and promoted many professional activities in emerging ocean science and technology.
- 1980-2000** **Joined as full professor of engineering, Colorado School of Mines, Golden, Colorado**
- 1973-80** **Lockheed Missiles & Space Co., R&D Division – Hydrodynamics Department, Sunnyvale, Calif. – staff engineer**
- Engaged in special projects: developments of underwater vehicles, surface effect ship waterjet propulsion, space shuttle solid rocket booster recovery in ocean, next-generation x-wing aircraft, wave statistics for the Atlantic, Pacific and Indian Oceans, riser design software, and oil spill recovery hardware for the Coast Guard.
- 1975-80** **The leader of the Advanced (Commercial) Deep-Ocean Mining Technology Development Team, Ocean Minerals Co., Lockheed Missiles & Space Co.** International consortium of Dutch Shell (Billiton), Amoco Oil, Bos Khalis, and Lockheed Consortium, Mountain View, California
- Engaged in special proprietary deep-ocean mining project..

- A 6,000-meter-commercial deep ocean mining systems and technology of ship-pipe-buffer-link-seafloor miner — Developed the concept, modular design, component technology and integrated technology, and pioneered the integrated system control operation simulation, feasibility
- Supported the North Pacific Ocean test of full-scale integrated ocean mining system and subsystems with Hughes Glomar Explorer in 5,000-meter depth.

1969-73 Esso (Exxon) Production Research Co. – Offshore Division, Houston, TX

- Member of the industry's first floating drilling system design software — Developed software to simulate motion, drilling weather downtime and created databank of the existing semisubmersibles and drill ships for the worldwide operations. Drafted evaluation criteria of worldwide model-test tanks for Esso tests.

1970-71 Member, Exxon-USA *Ocean Oil Spill Task Force*

- Developed ocean oil-spill containment concept, system and hardware (patent) for Santa Barbara Channel, later adopted for the Gulf of Mexico and Gulf of Alaska.

1964-66 David Taylor Model Basin (DTMB), The Navy, Bethesda, Maryland

- Developed high-speed craft hull and wave resistance software

1961-62.1 Korea Electric Power Corp. (KEPCO), Seoul, Korea

- The first industry job as mechanical engineer at thermal power plant

Professional Activities & Honor:

- 2013- Honorary Chair Professor, Korea Maritime and Ocean University, Busan, Korea
- 2007 **Ultra Program** as the expert in ocean and Arctic invited by Korea Ministry of Science and Tech, Seoul and Jeju, 2007.
- 2002– **Jin S Chung Award & Lecture**, named after Jin S Chung
- 1998 **Encarta Encyclopedia**, CD-ROM: Authored **Seafloor Mining (Deep-Ocean Mining)**
- 1996– **Chairman, Intl. Deep-Ocean Technology Symposium & Workshop**, National Science Foundation
- 1995– **Founder and Chairman, Ocean Mining Working Group and Ocean Mining Symposium**, Tsukuba, Japan
- 1992 **Neptune Award**, the ISOPE's highest award
- 1990– **Technical Editor, Intl. Journal of Offshore and Polar Engineering**
- 1991– **Founding Chairman and Editor, Annual Intl. Offshore and Polar Engineering Conference** (Annually more than 1000 participants from some 50 countries)
- 1990 **Lead co-founder of first European Offshore Mechanics Symposium**, Trondheim, Norway
- 1990 **Lead co-founder of first Pacific-Asia Offshore Mechanics Symposium**, Seoul, Korea
- 1987 **Member, EEZ Committee**, National Research Council, Academy of Science, Washington, DC
- 1987 **Chairman, Intl Ice Mechanics Workshop**, National Science Foundation
- 1986-95 **Chairman, Offshore Mechanics and Arctic Engineering Council** (registered 1986 in the State of Colorado, nonprofit, tax-exempt, IRS 501(c) (3))
- 1985-89 **Founding Chairman, ASME Offshore Mechanics & Arctic Engineering Division**
- 1985 **Founded ASME Journal of Offshore Mechanics & Arctic Engineering**
- 1984 **Member of Program Committee, Offshore Technology Conference, Houston, TX**

- 1983** **1983 Amoco Foundation Outstanding Teaching Award** at Colorado School of Mines
- 1981** **Founder, chair and editor of International Symposium** (renamed as Conference since 1988) **on Offshore Mechanics & Arctic Engineering**
- 1981** **UNDP Program – IMO consultant in Hydrodynamics at Ship Research Institute, Korea.**
- 1980** **Introduced interdisciplinary “Offshore Mechanics” and “Arctic Engineering.”**
- 1980-85** **Technical Editor, ASME Transactions Journal Energy Resources Tech.**
- 1978** **Eugene W. Jacobsen (Best Paper) Award** of ASME Petroleum Division; the first recipient
- 1967-69** **Developed the first Laser Doppler Anemometer for Turbulence Measurement in Non-Newtonian Fluids Flows,** PhD thesis at University of Michigan at Ann Arbor
- 1960-61** **Designed and built with a classmate a hydrofoil boat, the first in Asia, while a college student.**
- 1980-** **Invited speakers at numerous international conferences, research institutes, universities and companies.**

Invited speaker at:

World Ocean Forum (Busan, Korea, 2007, 2010), Korea Maritime Univ (2010), China National Offshore Oil Corp (Beijing, 2009), China National Petroleum Corp (Beijing, 2008), China University of Petroleum (Beijing), First European-Pacific Congress (Vladivostok, 2003), Ultra-Deep Engineering Tech (Brest, France, 2002), University of Stavanger (Norway, 2000), Technical University Berlin (Germany, 2001), Exxon Research & Engineering (New Jersey, 1999), Ministry of Ocean and Fisheries (1996), Korea Association of Deep-Ocean Resources (Seoul, 1994), Russian Academy of Sciences (Moscow, 1990), Tsinghua Univ (Beijing, 1989), Oil & Natural Gas Commission (ONGC) and Engineers India (New Delhi, 1989), Kuwait Univ (1989), University of California at Santa Barbara (1988), Ministry-MITI - Japanese Manganese Nodule Consortium and NKK (Tokyo, 1987), Osaka University (Japan, 1986), Korea Inst of Machinery and Metal (1985), China State Education Commission (Dalian Univ of Tech and Shanghai Jiao Tong Univ, China, 1982),

and many other institutes and international conferences:

- 1980-** **Consultants** to industries, research institutes, many government institutes including UNDP-IMO, US DOE-NREL.
- 1980-** **Marquis Who's Who in the World, in America, in the West** and more
Gates Foundation Who's Who Among Asian Americans (1995 premier issue –),
Oil & Gas Journal cover photo, Pennwell, December 1982
Offshore cover photo, Pennwell, December 1988
and more.
- 1981-** **Member of external academic committees** for university tenure, promotion, doctoral thesis etc.
at:
Massachusetts Institute of Technology, Woods Hole Oceanographic Inst, University of Wisconsin at Madison, University of Edinburgh, Memorial University of Newfoundland

And more
