

ISOPE FERT-2009 Osaka
ISOPE Frontier Energy Resources Technology
Symposium (FERT)

CALL FOR PAPERS

The 19th International Offshore and Polar Engineering Conference (ISOPE-2009), Osaka, Japan, June 21-26, 2009

ISOPE Frontier Energy Resources Technology Symposium (FERT-2009) will focus on the engineering, technology and materials challenges and requirements for the alternative energy sources and unconventional resources other than conventional fossil fuels. These alternative sources are receiving a great deal of attention, span a wide range of origin and, are future solutions for emission control and world energy demands. The purpose of this symposium is to provide a timely forum to identify and discuss the technologies that will be required for the commercial implementation. The symposium, the first of its kind in ISOPE, is envisioned to consist of prominent speakers who are leading authorities in the respective fields to discuss the technology status, issues and challenges in the various types of Frontier Energy Resources.

Suggested Topics:

Technology Challenges and Opportunities in:

Clean Coal

Oil Sands

Ultra Heavy Oil

Oil Shale

Ocean Wind Farms

Methane Hydrates

Renewable Energy

FERT-2009 Symposium Organizing Committee: To be updated

Dr. R. Ayer, ExxonMobil Res. and Engg. Co. raghavan.ayer@exxonmobil.com ;
908-730-3056

Dr. Dong S. Kim, Shell Global Solutions (US) Inc., dong.kim@shell.com ;
281-544-7187

Dr. George E. Kim, Perpetual Technologies, gkim@perpetualtech.ca ;
