

ISOPE-2016 Rhodes
Geotechnical/ Geoenvironmental Engineering Sessions
Final Call For Papers

We would like to invite the colleagues, who are interested in any areas in geotechnical/ geoenvironmental engineering, to submit high quality original papers to the ISOPE2016 geotechnical engineering sessions. The growing focus on oil/gas exploration and production activities in harsh environments including arctic, deepwater and seismically active regions has raised the need for deep understanding of geotechnical challenges as well innovative solutions to these challenges.

Special ISOPE room rate at 5-star hotel starts from €94/night.

Suggested Topics

Offshore Foundation; Suction Piles	Computational Geomechanics & Analysis
Offshore Site Investigation	Petroleum Geomechanics
Ground Improvement	Testing and Instrumentation
Geotechnical Earthquake Engineering	Arctic Geotechnical Challenges
Scour Assessment	Soil/Structure; Soil/Pipe Interaction
Soil Properties	Offshore Geohazards

Deadlines

Abstract:	20 November 2015
Manuscript for Review:	20 January 2016
Final Manuscript:	24 March 2016

Please email abstracts to any organizer below or submit online at:

<http://www.isopec.org/call4papers/2016/HowToSubmitAbstractOnline.htm>,

Abstracts MUST include the contact author's full postal address, telephone and fax numbers, and e-mail address to facilitate communications. Update on ISOPE-2016 will be posted at

<http://www.isopec.org/conferences/conferences.htm>

All papers accepted following peer-review will be published in ISOPE conference proceedings indexed by Engineering Index (EI), Scopus and more. High-quality papers may be selected for further review for publication on The International Journal of Offshore and Polar Engineering, indexed by Science Citation Index Web of Science.
