

ISOPE-2017 San Francisco
2017 Asset Integrity Symposium
First CALL FOR PAPERS

At
The 27th International Offshore and Polar Engineering Conference – ISOPE-2017
San Francisco, California, USA, June 25–30, 2017

The fourth symposium on Asset Integrity will be held at the annual ISOPE-2017 Conference, San Francisco. Attention to infrastructure and equipment related to Oil & Gas, Alternative Energy and Shipping has never been more intense, as their importance to economy and safety have increased, along with the potential of failure due to aging, corrosion and other factors. The challenges and costs of asset integrity evaluation and repair are expected to grow in the future as developments move into more challenging environments. The purpose of this symposium is to discuss the challenges and share the state-of-the-art knowledge in surveillance and integrity management for the broader energy and marine industry. This symposium will cover all aspects of science, technology, and applications related to monitoring, inspection, rehabilitation and leak detection methodologies.

The organizing committee cordially invites scientists and engineers from academia, industry, and regulatory authorities to share their latest advancements.

Special ISOPE room rate at top 5 star hotel starts from **\$169 /night**.

Suggested Technical Topics

Focus Sessions

Asset Integrity by Design
Best practices for life cycle evaluations
Advances in inspection & monitoring
Best practices for operations, monitoring and maintenance
Risk assessment and remaining life prediction
Repair and rehabilitation

- *Marine, Shipping & Infrastructure Integrity*
- *Pipeline & Riser Integrity*
- *Integrity Surveillance & Monitoring*
- *Data analytics*
- *Risk Based Inspection*
- *New Integrity Challenges*
