20th ISOPE Conference, Beijing, June 20-26, 2010

## Welcome to ISOPE-2011 Conference

We greatly appreciate the excellent responses with **1350** abstracts and help we have received from colleagues around the world in the successful organization of the 21st International Offshore and Polar Engineering Conference (ISOPE-2011), Maui, Hawaii, June 19–24, 2011. The Conference features **149** sessions of *peer-reviewed* papers and **8** keynote presentations from more than **51 countries**, including the ISOPE specialty symposia as a part of the ISOPE-2011 Conference.

The conference program is issued in 2 versions: Printed and internet ([www.isopec.org](http://www.isopec.org) and [www.isopec2011.org](http://www.isopec2011.org)). To meet the page limit, only the first author data are listed in the printed version, and the internet version lists all authors.

The purposes of the ISOPE conference are to:

- \* Promote technological progress and activities, international technological transfer and cooperation, and opportunities for engineers to maintain and improve technical competence; and
- \* Provide a timely international forum for technical activities, cooperation, opportunity and fellowship among researchers and engineers by developing focused session topics with high quality papers (in both originality and significance) accepted through rigorous review, establishing high international standards for publication and worldwide distribution and promoting interdisciplinary interaction between academia and industry.

The International Society of Offshore and Polar Engineers (ISOPE) has already held **47 successful international meetings** with peer-reviewed papers:

- 1st (1990) European Offshore Mechanics Symposium (**EUROMS-90**) Trondheim; EUROMS-99 Moscow;
- 1st (1990) Pacific/Asia Offshore Mechanics Symposium (ISOPE **PACOMS-90**) Seoul; PACOMS-94 Beijing; 1996 Pusan, 2002 Daejeon, 2004 Vladivostok, 2006 Dalian, 2008 Bangkok, 2010 Busan;
- Annual **ISOPE** conferences, starting in Edinburgh, 1991 were held in San Francisco, Singapore, Osaka, The Hague, Los Angeles, Honolulu, Montréal, Brest, Seattle, Stavanger, Kitakyushu, Honolulu, Toulon, Seoul, San Francisco, Lisbon, Vancouver, Osaka and Beijing. Since 1992, the annual ISOPE conference program has been the world's largest of its kind;
- 1st (1995) ISOPE Ocean Mining Symposium (**OMS-95**), Tsukuba, 1995, Seoul 1997, Goa 1999, Szczecin 2001, Tsukuba 2003, Changsha 2005, Lisbon 2007; Chennai 2009;
- 1st (1996) International Deep-Ocean Technology (**IDOT-96**) Symposium and Workshop, Los Angeles; 2001 Stavanger and 2009 Beijing;
- ISOPE **HPM** Symposium: Honolulu 2003, Toulon 2004, Seoul 2005, San Francisco 2006, Lisbon 2007, Vancouver 2008; Osaka 2009 and Beijing 2010 ;
- ISOPE **ANGT** Symposium: Seoul 2005;
